

## *Room Service Design*

Just as you would order personalized room service in a fine hotel, now you can do the same for your home with our new ROOM SERVICE DESIGN packages. ROOM SERVICE is our response to the overwhelming requests to offer On-line and Distant Design services. We have created a unique in depth questionnaire to ensure we deliver the same level of exceptional service as with our traditional in house design clients.

Each Room Service package will provide you with our signature Design Plan and specification package customized for you and your chosen space. All the elements are provided for you but if there are any areas you'd like us to develop further we'd be pleased to expand your package to suit your needs. It's up to you whether to implement the entire plan right away or build your room over time as you like - with our design plan to guide you.

### Each Room Service Design Package includes:

\*A comprehensive design plan outlining our concept for your space. It will provide the big picture idea behind our recommendations as well as show you how we've answered both your functional needs and style aesthetics. It will become your guide to follow through the design process.

\*Schematic design drawings to best illustrate our concept for you. Hand drawn and rendered in colour, you'll receive:

- \* Layout floor plan showing your furniture layout, lighting suggestions, accessory placement and window treatment suggestions.

- \* Key focal wall elevation or design detail showing you exactly what we have in mind. They could include, window treatment ideas, an art wall installation guide, built in bookcase idea, fireplace accessory vignette or new millwork ideas.

\*Design inspiration board to illustrate the overall concept for your space. It may include samples of suggested paint colours, furniture pieces, decorative lighting, accessories, fabric samples and/or area rugs.

\* Specification package that will become your shopping list. We will provide specific paint colours, suggested furniture pieces, decorative lighting, proposed window treatments including fabrics and hardware, specific linens, flooring and/or area rugs and key accessories. We'll provide the manufacturer/retailer so you can source the items yourself or inquire about having us provide them for you. [info@homeundone.com](mailto:info@homeundone.com)
